

## FIRE DECK SERIES DECORATIVE FLAME

# WoodStone

### DECORATIVE FLAME

Add more beautiful visual flare to your Fire Deck oven with the optional Decorative Flame Burner. Decorative Flames are available for all Fire Deck sizes\* and are available in natural gas and propane configurations.

Standard Fire Deck Series models are available in a variety of burner and fuel configurations. The standard unit has flame locations on one or both side ends of the unit, as well as a thermostatically controlled Underfloor IR burner beneath the oven deck. The Decorative Flame burner is located in the center rear of the oven, and adds a 15,000 BTU/hr direct front-facing visual flame. **Note:** Adding a Decorative Flame to an oven will slightly reduce available hearth capacity.

The Decorative Flame measures 20" long and 5" deep. The Decorative Flame turns on automatically when the oven controller is turned on.

Make sure to add the Decorative Flame to your Fire Deck 6045 or 8645 at time of order as they must be fitted at the factory.

\*Decorative Flame Burners are not available on coal-fired, wood-fired or Double Door ovens. They are available on Fire Deck ovens with an optional Viewing Window.
